Subject: **TEST GAUGE #216390 SERVICE & REPLACEMENT PARTS**

The 216390 Test Gauge is a high quality precision test gauge providing accurate air pressure readings. It is generally used in the testing of air brake components and systems.

Service or repair parts for this gauge may be obtained by direct contact to the H.J. Kirby Corporation, 5156 Mills Industrial Parkway, North Ridgeville, Ohio, 44039; phone: (a/c 216) 252-6262.

When an inquiry is made, the proper description to be used is "Marsh Inspector Gauge". The most common part required is the glass, part No. 33804-3.

We plan on cataloging this information in the near future on Page 96-A-1.
