**RAF583**

**RAF593**

As part of our recent Hydraulics makeover we announced that we were no longer going to offer reman brake shoes. Input from the customers we service has indicated that we were a bit premature in our departure from remanned shoes. To that end the following parts will be available until August 2003. At that time all shoes sold by BCVS will be service new only. All cores should be returned to your normal service plant. Please contact your BCVS account manager with questions.
