

Bendix Remanufactured Brake Shoes

Why settle for less than the best?

Who knows more about brakes than Bendix?

Great news – we’ve brought our reman brake shoe production in house. We’ve expanded our advanced remanufacturing operations once again, capitalizing on the depth of our product and manufacturing engineering expertise. It’s the foundation of our Bendix Remanufacturing business unit.

Our remanufactured Bendix® brand brake shoes and kits are made in the USA at our new state-of-the-art Bendix Brake Shoe Remanufacturing Center in Huntington, IN.

Experience and Expertise Count.

We’re a leading full-service OE supplier, bringing to bear over 35 years’ of remanufacturing the industry’s top compressors, air dryers, valves and more, with nearly 85 years of innovative wheel-end solutions and brake shoe manufacturing.

Our reman shoes are the product of remanufacturing operations that adhere to the rigorous, Six Sigma-based quality standards required by Bendix and our OEs. Our reman brake shoes are manufactured again – not just relined. They set the standard for coining, advanced paint coating, precision riveting, and quality control. That means durability, reliability and an extended lining life on your vehicle.

With Bendix Remanufactured Brake Shoes, you can count on:

OE Experience

As a premier supplier to the OEMs, we’ve designed and produced more than 40 million brake shoes in the past 21 years. Our brake shoes are standard at Kenworth, Peterbilt, Volvo and Mack.

❖ **What this means to you:** You know what you’re getting. When you open our box, you know it’s a top quality product made by an OE supplier.

Industry Leading Friction Development and Testing

Bendix has four in-house dynamometers running both industry standard friction tests and our own proprietary procedures.

❖ **What this means to you:** High quality, reliable, durable friction material that delivers maximum value and long service life.

Engineering Expertise

Bendix is a full brake system supplier, not just a friction manufacturer. Our unparalleled knowledge and understanding of the full system makes us uniquely qualified to develop and remanufacture brake products to exacting standards.

❖ **What this means to you:** You can count on remanufactured brake shoes built by the people who know them best – the Bendix brake experts.

Precision Riveting

Our OE experience makes us experts in rivet design, selection and installation. Over 40 million brake shoes produced. More than a billion rivets installed. Practice makes perfect.

❖ **What this means to you:** Bendix reman brake shoes are assembled with a precision riveting machine to ensure correct lining attachment, virtually eliminating loose lining and cracking.

Next Generation Coating Combats Corrosion

The next generation coating used in our Bendix Reman Brake Shoe has been salt-spray tested to ensure superior adhesion and corrosion resistance.

❖ **What this means to you:** Rust-jacking issues virtually disappear.

Adherence to Strict Bendix Quality Standards

Every Bendix facility, including the Bendix Brake Shoe Remanufacturing Center, operates under the same rigorous Six Sigma quality systems.

❖ **What this means to you:** With Bendix products, you'll have peace of mind. Quality begins with ease of installation and continues through a lifetime of reliable performance.

Packaging Accuracy

We've implemented extensive materials control, including an advanced picking system that ensures accurate and complete order fulfillment.

❖ **What this means to you:** You get what you ordered. Components are checked. Product is packaged and shipped correctly every time.

Extensive Distribution Network

Inventory is readily available through our vast North American distribution network.

❖ **What this means to you:** Fast and easy access to the products you need, when you need them.

Superior Customer Support

We support our products with field-tested sales and service professionals, a 100% ASE-certified field technical support team, and the Bendix Tech Team – an expert technical support phone line.

❖ **What this means to you:** We're always here to support you.

**Bendix is the industry standard brake product chosen by leading North American OE manufacturers.
If they put their trust in our products, why would you choose anything less?**
