Genuine Bendix Hardware Kits are designed for every application and operating condition. Choose from three levels of hardware kits designed to meet the specific needs of your fleet:

- Bendix Hardware Kits meet or exceed all OE standards and are specifically designed for trailer and line haul applications.
- Bendix XLS Hardware Kits, designed to meet the demands of the Bendix Extended Service brake systems, feature knurled rollers,

heavy-duty return springs and stainless steel anchor pin bushings.

- Bendix SD Hardware Kits, designed for the most severe applications, feature anti-seize lubricant and dimpled stainless steel bushings. The combination of these components reduce anchor pin to bushing seizure, making future brake changes easier.
